

At InfoTip, everything revolves around the digitalization of service processes. With our products and services, we make service and customer service processes more transparent, faster and more efficient. We stand for individual solutions and work together with our customers on the perfect implementation for them.

Our vision is to provide our customers with the most efficient IT solutions for service cases. In doing so we grow and continuously develop ourselves while contributing to a sustainable future.

None of our vacancies was compatible with your needs?

We eagerly anticipate your unsolicited application for one of our locations or your work from home.

#### **What we are looking for:**

- Good English and German language skills
- Good communication and social skills
